Non-Profit Solutions

DeGarmo helps identify qualified candidates for Non-profit organizations.

Using DeGarmo's Fit Index® Assessments for Non-Profit Solutions

Limited resources and overburdened or nonexistent HR staff cause many non-profit organizations (NPOs) to struggle to identify top-tier talent accurately and efficiently. They also face competition from other organizations, with fewer budget constraints, to recruit and attract talent with the best job- and culture-fit. NPOs need to leverage technology in innovative ways to help make hiring more efficient so the best-qualified candidates can be identified quickly and moved through the talent acquisition process.
